# Ubuntu installation guide for bbsहिन्दीOffice

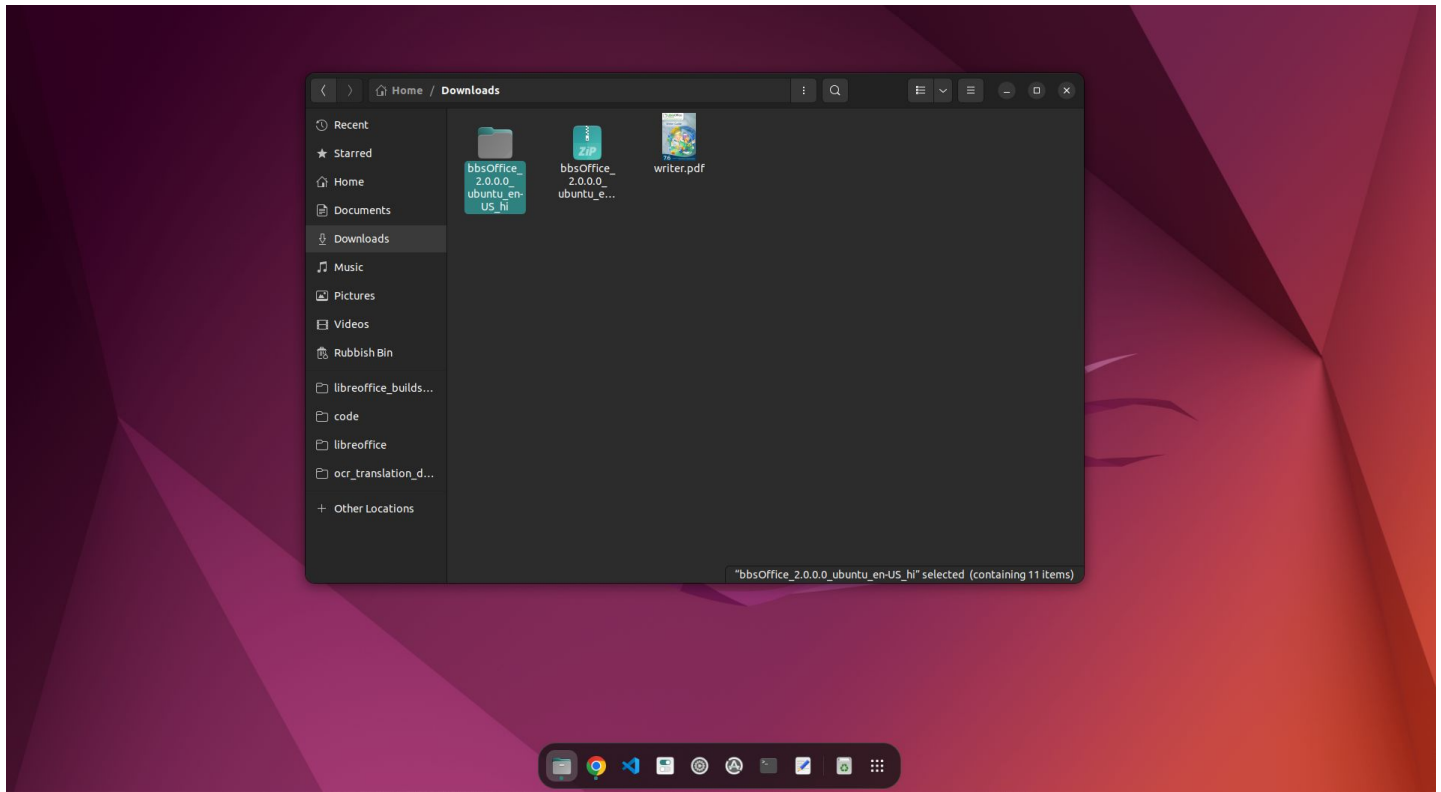

When you press download button, the zip file of the msi file gets added to your downloads folder.

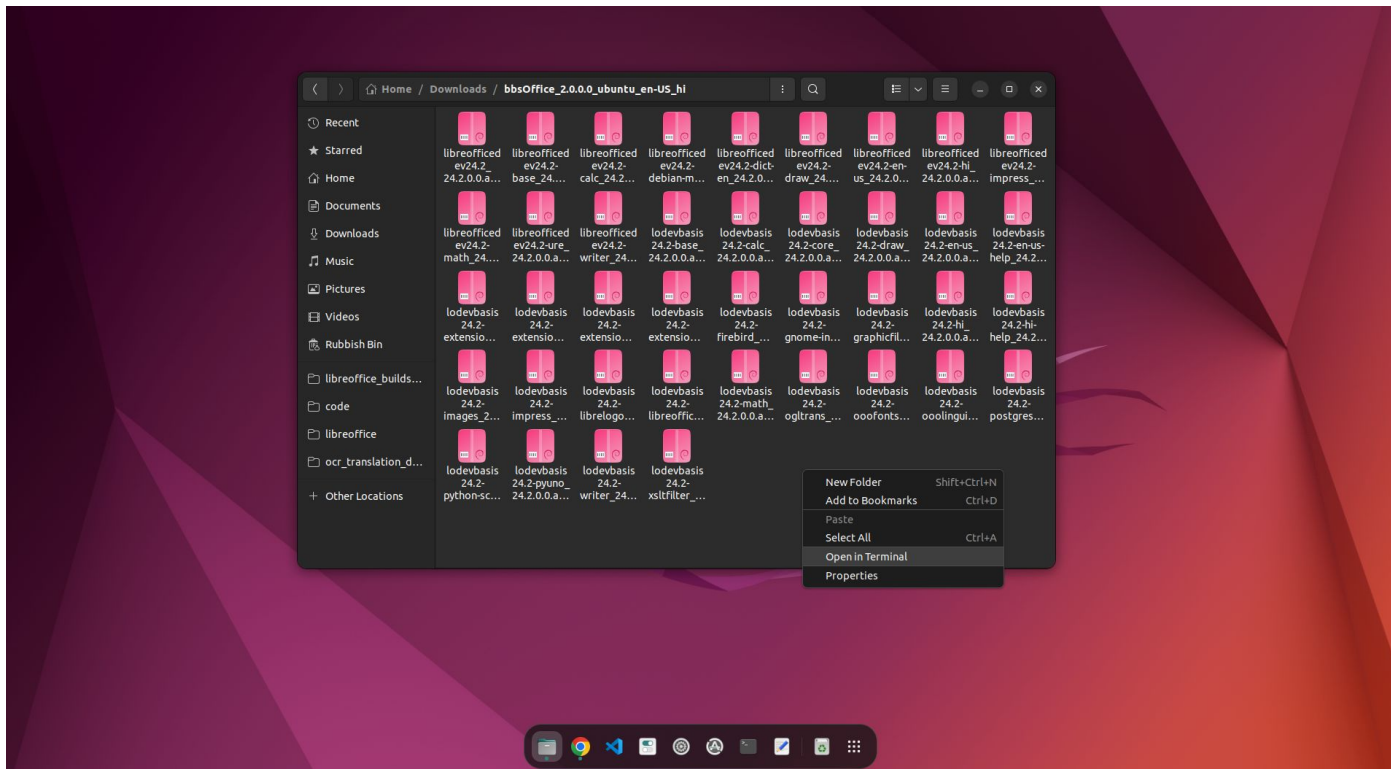

Go to downloads folder and choose **bbsOffice\_2.0.0.0\_Ubuntu\_x86-64\_en-US\_hi**. Right click on the chosen zip file.

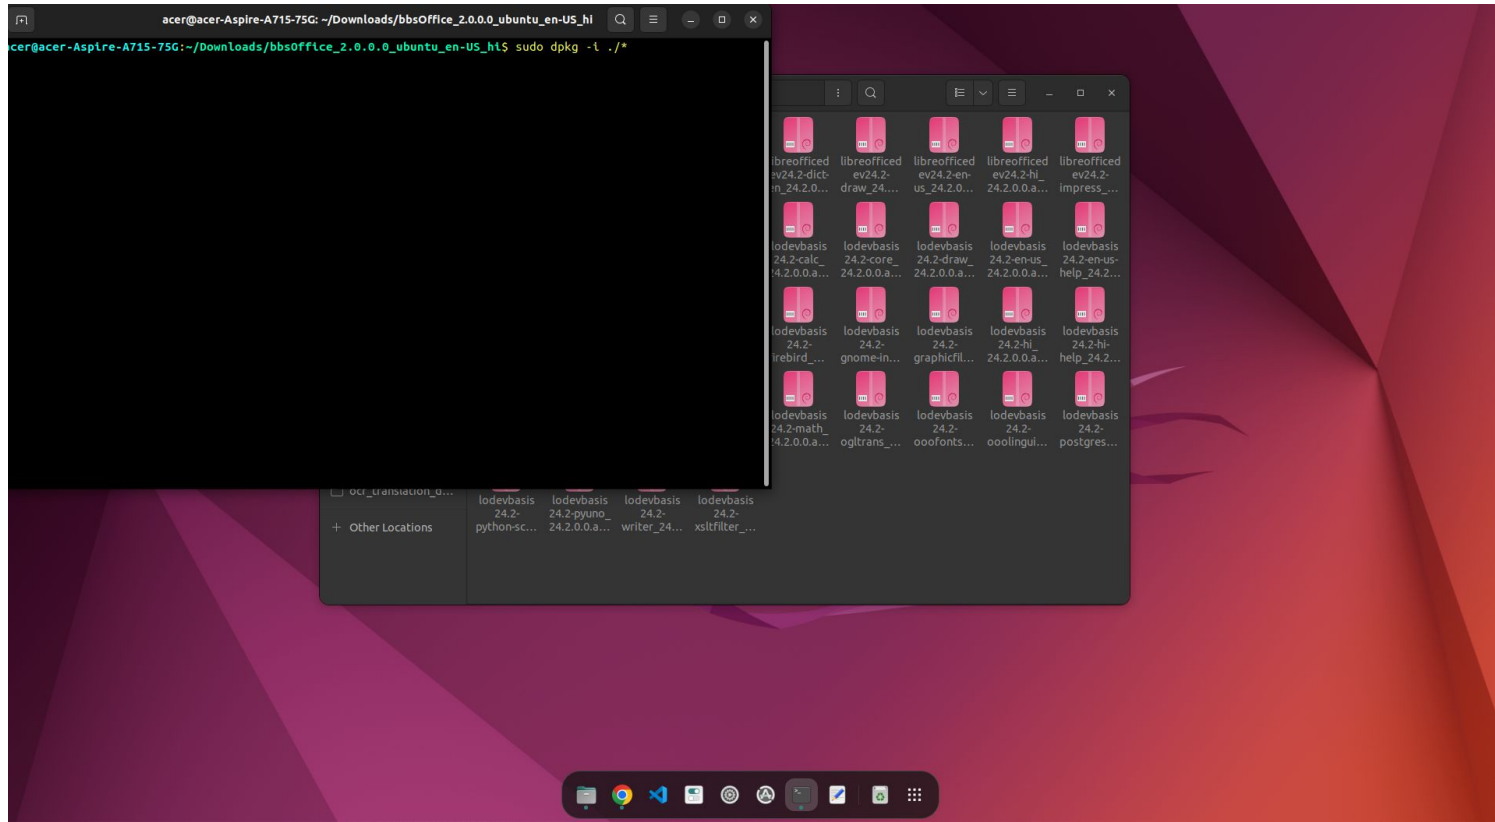

When you right click on the chosen file, you will see a dropdown list as shown in the image above. Chose the highlighted “Extract Here” option in the dropdown list and click on it.

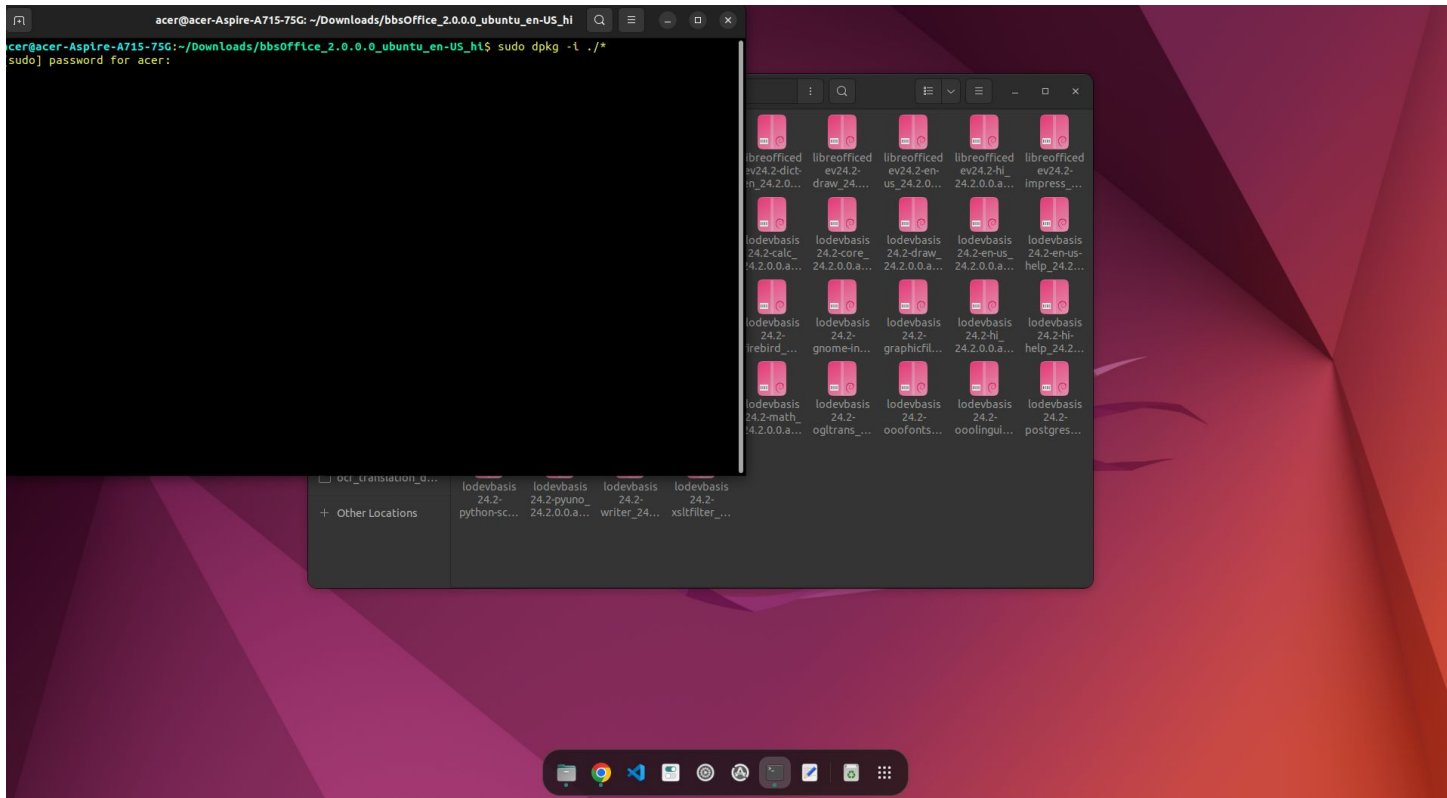

You can see the extracted folder highlighted in the above image. Now open the highlighted folder.

You can see a list of .deb files which are supposed to be installed. We do the installation through the terminal. Right click anywhere within the blank area of the Files application. Now click on “Open in Terminal” option.

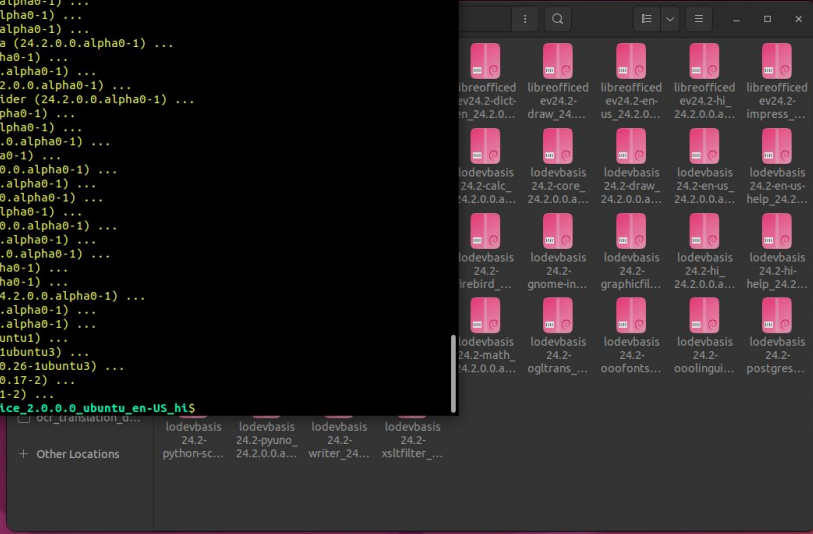

Now you can see a terminal opened as shown in the above image. Now enter the command “sudo dpkg -i ./\*” as shown above.

Now enter the password of the user and hit enter. This will commence the installation process.
